

REMARKS/ARGUMENTS

The undersigned thanks the Examiner and the Supervisory Examiner for granting a telephonic interview to the Applicant. During the interview conducted on April 10, 2007, agreement was reached that the cited art does not teach or suggest: capturing actual frames generated when a game is executed (see, for example, the summary of the invention). In addition, agreement was reached that displaying the captured frames would overcome the Examiner's rejection under 35 U.S.C. §101.

Pursuant to the agreement reached with the Examiner and the Supervisory Examiner, claims are presented in a form agreed upon and believed to be more preferred by the Examiners. New claims recite similar features as agreed upon. Accordingly, it is respectfully submitted that all pending claims are in condition for early allowance. It should be noted that this claim amendment has been made solely in order to expedite prosecution. The Applicant respectfully reiterates the arguments made in the amendment dated March 19, 2007 and submits that the claims are patentable over the cited art. Accordingly, the Applicant reserves the right to pursue the claims of the original and/or broader scope in a continuation Application.

Applicant hereby petitions for an extension of time which may be required to maintain the pendency of this case, and any required fee for such extension or any further fee required in connection with the filing of this Amendment is to be charged to Deposit Account No. 500388 (Order No. IGT1P038X1). Should the Examiner believe that a telephone conference would expedite the prosecution of this application, the undersigned can be reached at the telephone number set out below.

Respectfully submitted,
BEYER WEAVER LLP
